**ADDENDUM #2 – IFB-3041-02/GMG**  
**Term Contract for Dynamic Message Signs**

**The following information and the Revised Bid Response form constitute Addendum #2 and become part of the original bid package.**

The specifications for the Dynamic Message Sign (DMS) are hereby further amended with the following:

The contract items will be revised from one (1) “complete sign” item to four (4) “sign component” items. It is still anticipated that the majority of signs ordered will be signs having a fourteen (14) display module configuration, arranged vertically with seven (7) columns and two (2) rows. However, by modifying the contract to have sign components instead of a specific size sign, the County will be allowed to purchase signs in various sizes and configurations, depending on the number of display modules and either a vertical or horizontal mount, as well as stockpile spare modules.

The resulting four (4) contract items are as follows:

1. Display module – ADDCO BRICK or equal. The price for this item shall include the cost of the actual display module plus the cost of the sign frame, mounting hardware, communication and power rail, and any miscellaneous trim modules or module connection hardware computed on a per module basis.
2. Controller. This item is the single board controller used to control any one (1) sign of varying size.
3. Cabinet assembly. This item shall include the cabinet (27” high by 15” wide by 12” deep or similar), power supply, adequate size fuse, 75’ of communication cable, 75’ of power cable and other associated parts, such as circuit breakers, surge protectors, fan, etc. The cabinet shall allow either shelf mounting or backplate mounting of equipment and be mounted on the sign’s mast arm assembly to be supplied by the County.
4. Communication device and misc. parts. This item includes a hand-held device used for communication to the sign, software for sign communication and message input and review, any specific module mounting tools, and any installation guides or operating instructions.

The new quantity bid form is as follows: (Use revised Bid Response form).

| ITEM         | DESCRIPTION                          | U/M | ESTIMATED QUANTITY | UNIT PRICE | EXTENDED PRICE |
|--------------|--------------------------------------|-----|--------------------|------------|----------------|
| 1            | Display module                       |     | 450                |            |                |
| 2            | Sign controller                      |     | 30                 |            |                |
| 3            | Cabinet assembly                     |     | 30                 |            |                |
| 4            | Communication device and misc. parts |     | 4                  |            |                |
| <b>Total</b> |                                      |     |                    |            | <b>\$</b>      |

Using the above, a sample sign order for four (4) - 7 column by 2 row signs would require 56 modules (4 times 14), 4 controllers, 4 cabinets and 1 communication device and misc. parts.

The following is the response to American Signal Company's questions dated February 25, 2002:

1. This contract is for sign furnishing only. The communication to the sign via fiber will be completed by the County. The County will supply the modem to be installed in the cabinet and make all necessary fiber connections.
2. Since this is a full matrix sign, the character font size varies on the size of the sign. In addition to graphics, it is anticipated that font sizes from 7" to 20" may be used. For the initial size sign proposed having a fourteen (14) display module configuration, arranged vertically with seven (7) columns by two (2) rows, examples of allowable font sizes include 2 rows of 17" characters or 3 rows of 10" characters.
3. There are no minimum legibility requirements since this varies on the font size used.
4. The cabinet shall be 27" high by 15" wide by 12" deep or similar and be mounted on the sign's mast arm assembly to be supplied by the County.

**As acknowledgment of receipt of Addendum, attach this addendum immediately behind the Bid Response Form. Failure to acknowledge receipt of this addendum may result in disqualification of your bid submittal.**
